The following is a partial list of major construction education projects which our firm has performed design, bid management and construction administration services pertaining to Technology, Physical Security, Audio Visual and Technology FF&E disciplines. Our firm has designed these types of systems for more than 200 educational facilities throughout the country.

High Schools

Amistad High School, New Haven CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Bassick High School, Bridgeport CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Berlin High School, Berlin CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Bulkeley High School, Hartford CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Central High School, Bridgeport CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Enfield High School, Enfield CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Fairfield University Preparatory School, Fairfield CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design

Fisher Island Elementary School, Fisher Island NY

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design

Harding High School, Bridgeport CT

Project type: New Construction
Technology FF&E services

James Madison High School, Houston TX

Project type: New Construction
Physical Security Design

Killingly Memorial High School, Killingly CT

Project type: Renovate as New / Addition
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Kingston High School, Kingston NY

Project type: Renovate as New

Technology – Audio Visual – Physical Security Design services

Ludlowe High School, Fairfield CT

Project type: Renovations / Additions
Technology – Audio Visual – Physical Security Design

Maloney High School, Meriden CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

New London High School, New London CT

Project type: New Construction
Audio Visual – Technology FF&E services

Newtown High School, Newtown CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

North Branford High School, North Branford CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Norwalk High School, Norwalk CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Oliver Platt High School, Meriden CT

Project type: New Construction
Technology FF&E services

Stratford High School, Stratford CT

Project type: Renovate as New
Audio Visual – Physical Security Design – Technology FF&E services

Torrington Middle / High School, Torrington CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Middle Schools

Bennie Dover Jackson Middle School, New London CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Charter Oak Academy, West Hartford CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Gallup Hill Middle School, Ledyard CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

John F. Kennedy Middle School, Southington CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Joseph DePaolo Middle School, Southington CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Ledyard Middle School, Ledyard CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Longfellow Elementary School, Bridgeport CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

North Haven Middle School, North Haven CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Ponus Ridge Middle School, Norwalk CT

Project type: Renovation & New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Elementary Schools

Anna H. Rockwell Elementary School, Bethel CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Burns Latino Elementary School, Hartford CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Charter Oak International Academy, West Hartford CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Chatfield LoPresti, Seymour CT

Project type: Expansion and Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Cranbury Elementary School, Norwalk CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Crystal Lake Elementary School, Ellington CT

Project type: Expansion and Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Cutler Elementary School, Groton CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Gallup Hill Elementary School, Ledyard CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Jefferson Elementary School, Norwalk CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Longfellow School, Bridgeport CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Mill Hill Elementary School, Fairfield CT

Project type: Expansion & Alterations
Technology – Audio Visual – Physical Security Design

Ox Ridge Elementary School, Darien CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Ponus Ridge School, Norwalk CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Pumpkin Delight Elementary School, Milford CT

Project type: Renovate as New / Addition
Technology – Physical Security Design

R.M.T. Johnson School, Bethel CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Rockwell Elementary School, Bethel CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Rogers Inter-District Magnet Extension, Stamford CT

Project type: Renovate as New
Technology – Audio Visual – Technology FF&E services

Westside Elementary School, Groton CT

Project type: New Construction
Technology – Audio Visual – Physical Security Design – Technology FF&E services

Westover Elementary School, Stamford CT

Project type: Renovate as New
Technology – Audio Visual – Physical Security Design
